 Sunset Cosmetic Surgery
 Los Angeles, California

DANIEL YAMINI, MD, FACS

Dr. Yamini performed a Mommy Makeover on this 40-year-old patient, which included a circumareolar Benelli breast lift and augmentation using 400-cc silicone implants, an umbilical hernia repair, a tummy tuck and some liposuction.

STEVEN SVEHLAK, MD, FACS

This 25-year-old patient felt her breasts were too large and heavy and wanted smaller, perkier breasts to complement her figure. Dr. Svehlak performed a bilateral anchor scar breast reduction with contouring of the lateral portion of the breasts using liposuction, and a lift without implants.

“confidence in your appearance can be very empowering”

ABOUT DR. YAMINI AND DR. SVEHLAK

HOW DO SURGICAL CONSULTATIONS GENERALLY WORK AT SUNSET?

“It starts with listening closely to each patient’s goals and concerns. From there, we recommend a surgical plan and take plenty of time to answer questions about the process and what kind of results to expect,” says Dr. Svehlak. “I never want anyone to feel rushed or pressured, so keeping the tone relaxed keeps the consultations comfortable and allows patients to make an informed decision,” adds Dr. Yamini.

WHAT NONSURGICAL PROCEDURES ARE THE MOST POPULAR AT SUNSET?

Botox® and injectable fillers are the most requested. We use Botox to relax frown lines and crow’s-feet, and injectable fillers for “liquid” facelifts, to soften wrinkles or creases around the mouth, or to gently enhance the shape or fullness of lips. For sun damage, the most popular procedures are Portrait Portrait® Plasma Skin Resurfacing and VI Peels which both treat wrinkles, age spots, sun damage and uneven skin texture.

DESCRIBE THE ATMOSPHERE AT YOUR OFFICE.

Our office is on the eighth floor of a high-rise on Sunset Boulevard, and has spectacular views that stretch from L.A. to the ocean. It is contemporary, yet warm and comfortable for a relaxing environment.

Total beauty: inside and out

Surgeons at Sunset Cosmetic Surgery recognize that nutrition and post-procedure care play key roles in achieving and maintaining lasting results after surgical procedures. “We want our clients to feel good inside and out, and making good food choices is important,” says Dr. Yamini. “Our patients are often surprised to hear that you can have a faster recovery after a procedure by simply doing Endermologie and eating right,” adds Dr. Svehlak. The practice has kept a long-time partnership with the Endermologie providers at Body Care Professionals, who work with many of their patients to help improve their lymphatic systems and enhance circulation to help reduce post-operative bruising and swelling. Sunset recently forged another partnership with Z.E.N. Foods in L.A., bringing the idea of “Total Beauty” full-circle by providing patients with discounted rates on the healthy, home-delivered meal service favored by many celebrities.
