IMPROVING POSTERIOURS

One of the fastest-growing procedures at Sunset Cosmetic Surgery is the Brazilian butt lift, which reshapes the buttocks using fat grafting and liposculpting for a perkier backside. Popular with those who are bothered by their saggy or flat buttocks, the procedure first involves extracting fat from areas of the body. The fat is then purified and injected into the buttocks to add volume. "Squats and lunges can help, but are usually not enough for a patient considering this procedure," says Dr. Yamini. Liposuction can also be done to enhance the effect. "I just had a mother and daughter come in to have this procedure done together," recalls Dr. Svehlak.

BEFORE

CASE 1

AFTER

▶ **DANIEL YAMINI, MD, FACS**

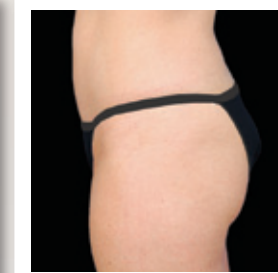

Liposuction of the abdomen and waist were combined with a Brazilian butt lift to add curves and give this patient the more feminine shape she wanted.

BEFORE

CASE 2

AFTER

▶ **STEVEN SVEHLAK, MD, FACS**

Rounder and uplifted, this 38-year-old patient's curvier backside is the result of a Brazilian butt lift and liposculpting, which she underwent to feel sexier and less "boyish."

"WE FOCUS ON PATIENT SAFETY, COMFORT AND SATISFACTION"

DOUBLE BOARD-CERTIFIED AND FELLOWS OF THE AMERICAN COLLEGE OF SURGEONS, DR. YAMINI AND DR. SVEHLAK ARE CONSISTENTLY RECOGNIZED BY THEIR PATIENTS AND PEERS FOR THEIR PRECISION COSMETIC ENHANCEMENTS OF THE FACE AND BODY, AS WELL AS THEIR REVISION WORK. PATIENTS TRAVEL FROM ALL OVER THE WORLD TO VISIT THE SURGEONS, WHO FOCUS ON PATIENT SAFETY, COMFORT AND SATISFACTION, WHILE STRIVING TO DELIVER THE MOST NATURAL-LOOKING RESULTS POSSIBLE.

DR. SVEHLAK: WHAT IS YOUR APPROACH TO PLASTIC SURGERY?

I am here to help my patients achieve change in their lives, as safely and comfortably as possible. I always strive to give them natural-looking results they can be proud of and feel confident about.

ARE MOST OF YOUR PATIENTS WOMEN?

Certainly a large portion of our patients are women, however, our practice reflects the growing trend in aesthetic services for men as well. The most-requested procedures for men are correction of gynecomastia (male breasts), liposuction of the love handles and chin implants, which can help someone with a weak chin achieve a more balanced, masculine jawline.

DR. YAMINI: WHAT IS THE MOST REWARDING PART OF YOUR JOB?

Delivering confidence. I love creating beauty, but the best part goes beyond the aesthetic result. I love seeing the internal transformations my patients experience when they feel really good about how they look.
