LOS ANGELES, CALIFORNIA

D

ouble board-certified and

Fellows of the American College of Surgeons, Dr. Daniel Yamini and Dr. Steven Svehlak are consistently recognized by their patients and peers for their precision cosmetic enhancements of the face and body, as well as their correctional work. Patients travel from all over the world to visit the surgeons, who focus on patient safety, comfort and satisfaction, while striving to deliver the most natural-looking results possible. One of the fastest-growing procedures at Sunset Cosmetic Surgery is the Brazilian butt lift. The procedure reshapes the buttocks using a combination of fat grafting and targeted liposculpting for a perkier, curvier backside.

“

We strive to help each patient feel safe, comfortable and confident.

WHO WE ARE

1.

THREE THINGS TO CONSIDER BEFORE SURGERY

Patients need to make sure they understand plastic surgery, as in learning what the standard practices are regarding typical procedures; learn and know the qualifications, certifications and history or background of a potential surgeon; and state your expectations out loud

2.

THE MOST OUTRAGEOUS MEDICAL MYTHS WE'VE HEARD

The two biggest myths out there are that plastic surgery is only for women, and it's only for the rich and famous

3.

WHAT WE LOVE MOST ABOUT OUR PROFESSION

Helping patients enhance their own features

4.

HOW OUR PROFESSION HAS EVOLVED

Nonsurgical injectable treatments are advancing and becoming increasingly popular among not only women, but men too

5.

HOW WE MAKE THE BEST FIRST IMPRESSION

By listening—it's a lost art, and the only true way to connect with someone and gain their trust

6.

WHAT SETS OUR PRACTICE APART

At Sunset Cosmetic Surgery, we really take the time to get to know where each patient is coming from and what is motivating them to make a change in their life

7.

THE FUTURE OF OUR FIELD

As technology continues to advance, making enhancements to one's physical appearance will become even more affordable, safe and easy

8.

THE BIGGEST MISCONCEPTION ABOUT OUR FIELD

The biggest misconception about plastic surgery that we see is confusion over the difference between a "cosmetic surgeon" and a board-certified plastic surgeon

OUR CREDENTIALS

Medical Degrees
Dr. Yamini: Medical College of Wisconsin

Dr. Svehlak: New York Medical College

Board Certification
American Board of Plastic Surgery

American Board of Surgery
