

# INJECTABLE/ NON-SURGICAL SERVICES BY MONA ENDOW, RN FA

## Injectables

**BOTOX** **\$12**

Botox is a neuro-toxin. When injected into the muscles of the forehead, around the eyes and in select/specific areas of the face it temporarily freezes the muscle and also the movement of that muscle; this eliminates lines, wrinkles and can achieve various looks when used by an experienced injector. Results appear within 5-7 days and last upwards of 3 months.

**FILLERS** **\$550**

Hyaluronic Acid fillers plump and add volume to the areas they are injected. Different fillers provide different results can attract more or less water/volume to the areas they are injected. We offer Juvederm Ultra, Juvederm Ultra Plus, Volbella, Vollure, Voluma, Restylane, Restylane Lyft. Depending on the area being injected and the desired amount of correction several syringes may be used at once to achieve full correction.

**KYBELLA** **\$600**

Kybella is an injectable formulation of deoxycholic acid, a naturally occurring molecule in the body that aids in the breakdown and absorptions of fat. When injected into areas of unwanted fat such as the double-chin, Kybella causes the destruction of fat cells. Kybella treatments range anywhere from 2-4 viles per treatment with up to three treatments necessary for full correction.

## Non-Surgical

**MICRONEEDLING/PRP - FACE, NECK,  
SCALP & ACNE SCARS** **\$499  
\$1200**

Our microneedling treatments are done using the FDA cleared SkinPen. The SkinPen has 12 microneedles that move up and down rapidly to penetrate into deeper layers of the skin to stimulate collagen and deliver serums and hydration into microchannels. Microneedling can heal acne scarring, stretch marks and reduce fine lines and wrinkles.

PRP (Platelet Rich Plasma) is derived from your blood that is drawn, spun in a centrifuge and seperated from the plasma. That plasma is then injected and used topically to send a rush of healing youth serum to areas in need of rapid rejuvenation.

**THREAD LIFT - FACE, NECK** **\$1500  
\$2000**

The Thread Lift is a brilliant, non-surgical alternative to a traditional facelift. Designed to be less invasive, it can reduce sagging around the cheeks, jawline, and neck more quickly and with little to no downtime or recovery time. Invisible threads are used injected to discreetly hold repositioned skin and facial tissue in their newly form position. The number of threads used corresponds to the size of the area being lifted and also the amount of correction necessary. The most effective areas we treat are the face and neck. Results can last anywhere from 2-3 years.

**CO2 LASER SKIN RESURFACING** **\$3000**

CO2 Laser is an ablative laser that removes the outer layers of damaged, scarred, wrinkled and sagging skin to reveal fresh, new and healthy skin. This is an invasive tratment that is an aggressive option but well worth the recovery. Healing takes 1-3 months with downtime lasting up to three weeks.

## Vaginal Rejuvenation

**NEUVIVA - RADIO FREQUENCY/ SKIN  
TIGHTENING** **\$3000  
FOR 3**

Vaginal health issues such as dryness or burning are commonly seen in post-menopausal women and women who have had a hysterectomy or cancer therapy, but there are many reasons why these conditions can occur and they affect millions of women. Our laser and Radio Frequency (RF) device can deliver energy to the vaginal wall to promote vaginal epithelial revitalization, improve laxity, and return to vaginal health.

**NEUVIVA WITH EDGE VLR CO2 LASER** **\$4500  
FOR 3**

the Neuvia with Edge VLR CO2 laser delivers CO2 laser energy to the vaginal wall to promote vaginal mucosal revitalization and a return to vaginal health. The procedure is performed in an office environment without the need for anesthesia and without pain or side effects.
