## CUSTOM COSMETIC SURGERY FOR A MORE BEAUTIFUL YOU

"Today's women want to look like themselves, only better," says Dr. Yamini, who stresses that softer, natural-looking improvements leave patients looking younger and fresher, helping them to feel more confident. "Each procedure we perform is completely tailored to the patient," adds Dr. Svehlak. "There is no such thing as one-size-fits-all in our practice." To achieve the best-possible results, the surgeons customize each procedure to fit the individual needs and goals of each patient. They believe a customized procedure produces a customized result—a result unique to the patient that is extremely natural-looking.

#### WHAT SHOULD I EXPECT FROM A COSMETIC SURGERY CONSULTATION?

We consult with each patient about their aesthetic goals and counsel them regarding which procedures will help them achieve their desired look. Our no-pressure approach ensures our guests feel comfortable and at ease.

#### IN WHAT WAYS DO YOU PUT PATIENTS FIRST?

We book adequate time for each patient. We know that nobody likes to wait and that each patient's time is as valuable as ours. In addition, we never take shortcuts—safety and satisfaction are our top priorities. Patients are often surprised when we recommend a less-expensive treatment option. We hope it goes to show that we really want what is best for them.

#### HOW DO YOU DEFINE PLASTIC SURGERY?

Plastic surgery is a combination of skill, artistic eye and talent. A superior plastic surgeon has all those attributes, in addition to experience.
