### ACHIEVING A NATURAL-LOOKING NECK ENHANCEMENT

"The neck often ages faster than the rest of the face," says Dr. Svehlak. "Fortunately, there are a variety of surgical and nonsurgical options that can make the neck look smoother and more youthful." The surgeons at Sunset offer a variety of solutions for patients who want a firmer neck that is also extremely natural-looking. "An injection of Botox, off-label, in the bulging platysma neck 'bands' can help smooth out a ropey look," says Dr. Yamini. "Additionally, in-office liposculpting or a laser necklift can also result in a more defined, leaner look. And finally, necklifts can remove excess skin and improve hanging jowls for a smoother jawline."

BEFORE

CASE 1

AFTER

#### DANIEL YAMINI, MD, FACS

This patient wanted a refreshed yet natural look. To achieve this, Dr. Yamini performed an endoscopic browlift, upper eyelid surgery, a facelift and necklift, and fat grafting to add volume.

BEFORE

CASE 2

AFTER

#### STEVEN SVEHLAK, MD, FACS

This 44-year-old patient wanted to improve the full, heavy look of her neck, jawline and jowls. Dr. Svehlak used VASERlipo™ to contour and enhance the areas for a more taut, youthful look.

"WE STRIVE TO OFFER SAFE, SIMPLE SOLUTIONS THAT DELIVER SATISFACTION AND NATURAL-LOOKING RESULTS"

DOUBLE BOARD-CERTIFIED AND FELLOWS OF THE AMERICAN COLLEGE OF SURGEONS, DR. YAMINI AND DR. SVEHLAK ARE CONSISTENTLY RECOGNIZED BY THEIR PATIENTS AND PEERS FOR THEIR PRECISION COSMETIC ENHANCEMENTS OF THE FACE AND BODY, AS WELL AS THEIR REVISION WORK. PATIENTS TRAVEL FROM ALL OVER THE WORLD TO VISIT THE SURGEONS, WHO FOCUS ON PATIENT SAFETY, COMFORT AND SATISFACTION, WHILE STRIVING TO DELIVER THE MOST NATURAL-LOOKING RESULTS POSSIBLE.

#### ARE THERE ANY POTENTIAL SIDE EFFECTS WITH BOTOX?

Using Botox, off-label, to treat neck bands is considered very safe with few side effects. Patients may experience similar effects as those who have had the injections on their face, including redness, swelling, tenderness, inflammation and/or minimal bruising.

#### HOW QUICKLY WILL A PATIENT SEE RESULTS?

An in-office procedure, Botox injections require little to no downtime and may be performed in approximately 30 minutes. Within two to three days, many patients typically begin noticing results; however, for some it can take up to a week to see the effect. Results typically last about four months.

#### HOW DOES BOTOX WORK, OFF-LABEL, TO HELP CORRECT NECK BANDS?

Botox is injected, off-label, into the platysma muscles of the neck. Once there, it relaxes and smooths out the bulging, hyperactive muscles that look like vertical bands, which can pull downward on the jawline and jowls. Without this downward pull, patients often report a smoother-looking, more lifted jawline.
